Roddy Bieber is the regional manager of **API SYSTEMS GROUP INC.**, a subsidiary of API Group Inc. He assumed the role in May 2005.

APi Systems Group is a leader in the fire alarm industry and is a full-service commercial and industrial fire suppression systems contractor. Since Bieber assumed his responsibility over APi Systems Group, revenue has more than doubled and profit exceeds expectations. Bieber expanded the company's coverage area, which now serves all of Texas, Oklahoma, Arkansas and Louisiana.

Bieber began his career in Life Safety in 1986 in Colorado and has been an owner and manager of several businesses in the industry since 1995.

He established a fire alarm distributorship in Colorado and sold the business to a large multi-national company in 1998 where he managed the operation until 2001. Bieber then moved to Texas to open a fire alarm office for a national Life Safety company. All of his endeavors are successful and profitable operations that remain in business.

Bieber is a member of National Fire Protection Association and Fire Suppression Systems Association.

Bieber and his wife, Diane, are the proud parents of two children and have one grandchild. He enjoys golfing and movies.
