INDUSTRIAL CONTRACTORS INC. (ICI) is an API Group company that specializes in industrial construction and is one of the industry leaders in North Dakota and surrounding states. As president and chief executive officer of ICI, Lloyd Bushong has spent his entire career in the construction industry, having served in several leadership positions.

Bushong's experience comes from being a Graduate Boilermaker Apprentice and 10 years as a construction boilermaker with several contractors. He spent 10 years as a Local Union business agent and the past 17 years in various management positions including project manager, division manager and vice president.

His professional skills were further developed by attending leadership, educational and personal development institutes such as FMI, MCAA, George Meany School of Labor, International Foundation and Northern Michigan University.

Bushong's industry involvement includes participation and the chairing of several Labor/Management Boards. He sits as board of director on the Great Lakes Area Boilermakers Apprenticeship Program. He is past president of the U.P. Building and Construction Trades Council and the past president of the U.P. Mechanical Contractors Association.

Bushong was chairman of the Michigan Boilermaker Employers Group; the chairman and trustee on the U.P. Plumbers and Pipe Fitters Fringe Funds; and is currently a trustee on the Iron Workers Pension, Defined Contribution and Apprenticeship Fringe Funds.

Bushong finds North Dakota a natural fit for him as he enjoys the friendly community of Bismarck, the open spaces, hunting, fishing and riding his Harley. ♣
